## GRANVILLE

(Special to the Advocate.)

Granville, April 23.—"So far as the new proposition for electricity for the village is concerned, the matter again is up to the people," said Mayor C. D. Coons. "Council has granted a franchise; the cost of installing has been reduced from \$55,000 to \$40,000; the Denison board of trustees has voted to buy half the stock thus showing a willingness to meet the people half way in every progressive movement."

"The company's extension engineer is expected in Granville soon to organize for a campaign. As more than \$20,000 was raised last summer toward the required \$55,000 there should be no question now as to the success of the venture. Opportunity for a good investment will not be allowed to pass a second time."

Prof. C. H. Dickerman of the English department in Denison, who has been instrumental in promoting interest among the high schools of the state in oratorical work announces that nine contestants from as many high schools will appear in the recital hall Saturday evening with Dr. Williams presiding. The three winners will be given Denison scholarships. The contest is open to the public.

One of the notable musical events of the season according to the critics, was the piano recital given by Mrs. Josephine Bonazzi-Lytle, Wednesday evening in Recital hall. The program which was unusual, was given with the technique, the smoothness and the feeling of the real artist, and the appreciation of the audience was shown in the applause and in the bestowal of flowers over the footlights. Beethoven's "Variations in F major", Chopin's "Polonaise in C sharp minor" and "Berceuse", Zuecker's "In a Boat", Paganini-Liszt's "Etude", a group of Bajardi numbers and a closing "Etude in D flat major" by Sybanti, completed the program. The two last named composers were described by Mrs. Lytle as better known in Italy where she had had the advantage of their personal instruction. Mrs. Lytle was born in Italy and began her musical studies at the age of nine years, studying for 11 years in the conservatory at Rome. Ten years ago she came to the United States and last fall she came with her husband Prof. V. V. Lytle to Granville. He is head of the organ department in the Denison church and she teaches two of his classes in Solfege. She is a member of the Women's Music club where she takes active part both in piano and voice work.

Miss Lucy of Philadelphia, who is visiting her aunt, Mrs. Lutz, was honor guest at a dinner given Wednesday evening by Mrs. King and Miss Clara Sheldon at the Sheldon home in the village of Solvers. Covers were laid for the hostesses, Mrs. Lutz, Mrs. Devenney, Miss Eva Robinson, Miss Anna Anglis, Misses Mayme and Martha Geach.

J. C. Campbell of Columbus was in the village Wednesday morning to open "Bryn Lawr," their country home on the Lancaster road.

The Baptist church auditorium has been chosen by the Shepardsen Glee club in which to hold the spring concert on May 6.

Many Granville people, members of the Mountbuilders Country club, after an afternoon on the golf links, attended the benefit show for Licking county crippled children in the Newark auditorium last evening as the Baptist church business meeting and dinner this evening prevented their attendance at the Granville showing. Among the guests were: Prof. and Mrs. T. S. Johnson, Mayor and Mrs. C. D. Coons, Prof. and Mrs. Tanner, Mrs. Brumback, Mrs. Shoemaker and Mrs. Darrow.

The College Student association of Denison which was granted a charter at the recent meeting of the board of trustees, was installed this morning at 11:30 at chapel on the hill. John Ehrle, president of the old student government association, transferred his authority to the newly elected president, Glen Owen. Prof. Theodore Johnson, member of the committee on student affairs gave an address.

The Boy Scouts are lining up for work on Granville clean-up day, May 4.

For the benefit of the kindergarten work in the village, tag day has been set for next week.

Fenwick Ewing of Wooster, formerly a Granville, later a Newark resident, was in the village Wednesday.

At the relatives' dinner given at the Phi Gamma house last evening, covers were laid for: Prof. and Mrs. V. V. Lytle, Miss Anna B. Peckham, Miss Ruth Atwell of the Denison faculty and Misses Alice Kinney, Katherine Kinney, Dorothy Kinney, Mary Kinney, Mary Parker, Eleanor Floyd, Helen Shumaker, Colinne McClure, Catherine McClure, Margaret Burt, Dorothy Daub, Betty Milson, Jane Munn, Frances Shreve, Muriel Vyrich, Velma Welton, Lurger, Helen Chamberlain, Ruth Avok, Gladys Currin, Emile Tellman, Dorothy French, Maude Sutton, Margorie Stanton, Harriet Dolson, Louise Tuttle.

Mr. and Mrs. C. A. Stanforth motored to Columbus Wednesday accompanied by Mr. and Mrs. George Stuart.

Charles Sellers who went to Whitesville, New York, last week with the body of Mrs. Laura McBride, his grandmother, has resumed his duties in the Granville bank.

### Our Boys and Girls

Few parents teach their children nowadays to be thrifty and economical as did their grandparents. The present day children are losing some sort of the sturdy characteristics which their forefathers possessed. Thrift is not sturdiness; it is not frugeness; it is not making the best and the most out of existing circumstances and surroundings.

You have gone, sometimes, up the side of a hill and have seen trees growing, as it appeared, out of solid rock. They were not beautiful, symmetrical trees, they were not fruit bearing trees, but they were thrifty trees because they were making the most of their surroundings. They were doing their best with the scanty soil and surroundings.

This is the secret of true success, of true thrift. It is the grasping and holding on to those things, and only these, which can be built into the highest well being, the noblest character. With such an end in view, thrift takes on a new shape and enables one to do without some things and to make the most of the others.

**NEW VAMP ROLE IN ENID BENNETT'S NEW PICTURE "HAIRPINS"**

An entirely new species of vamp is introduced in "Hairpins," the Thomas H. Ince Paramount Artefact production starring Enid Bennett, which will be shown at the Alhambra theater for 2 days beginning yesterday. The part of the siren is played by Grace Morse in the role of Mrs. Kent, whose knowledge of vamping serves to bring about a change for the better in the affection of Rex Rossmore for his wife, Muriel, played by Enid Bennett.

Miss Morse, by her artistic interpretation in "Hairpins," adds greatly to the excellence of the picture. And furthermore, by her vamping she is able to transform Mrs. Rossmore from the quiet unassuming and untidy housewife into a siren who wins the heart of every man she meets.

Miss Morse is but one of a noteworthy cast supporting Miss Bennett in the latest story of domestic difficulties written by C. Gardner Sullivan. Matt Moore plays the part of her husband, William Conklin, as seen as the "home wrecker," and Margaret Livingston portrays the role of the pretty stenographer who almost succeeds in making Mr. Rossmore forget his wife.

**"HALF A CHANCE" SMASHING RED-BLOOD DRAMA**

As a fighter in a ring, battered, blinded and bloody, fights instinctively against odds, so fought "Sailor" Burke

when he asked of the world against him only half a chance to make good. "Sailor" Burke is the two-fisted man of brains and brawn who wins our admiration and sympathy in the swift moving, powerful and virile photoplay, "Half a Chance," which moved the Grand theater to applause yesterday and showing the last time today.

"Half a Chance," adapted from Frederick S. Isham's celebrated novel, is the first picture this reviewer has seen that can stand face to face with that celluloid classic "The Spoilers," without blushing. It houses every drop of red blood in you for the man who is convicted of murder on a frame-up, escapes while being taken to prison, is shipwrecked and cast on a desert island with a case low books.

Ten years later he is a great criminal lawyer, and facing newer and greater dangers that he has to fight off with keen wits, a keen brain and the brute force that had at one time made him a star of the prize fight. The romance deftly woven throughout is an exquisite and tender as the hero is red blooded and forceful.

Cincinnati, April 28.—In the midst of life, prepare for death," is an axiom that Edwin S. Long, former department examiner in the city auditor's office here, developed when his body was examined after his death. A complete obituary, written by Long was found. It had been composed seven or eight years ago, it was said.

New York, Tex. Rickard was sued by Frank C. Armstrong, who alleges he was associated with Rickard in several business enterprises, from which he says he received no share. He did not specify the amount of his claims.

Decreased Supply This Year Is Predicted By State Farm Bureau — Prices Are Off.

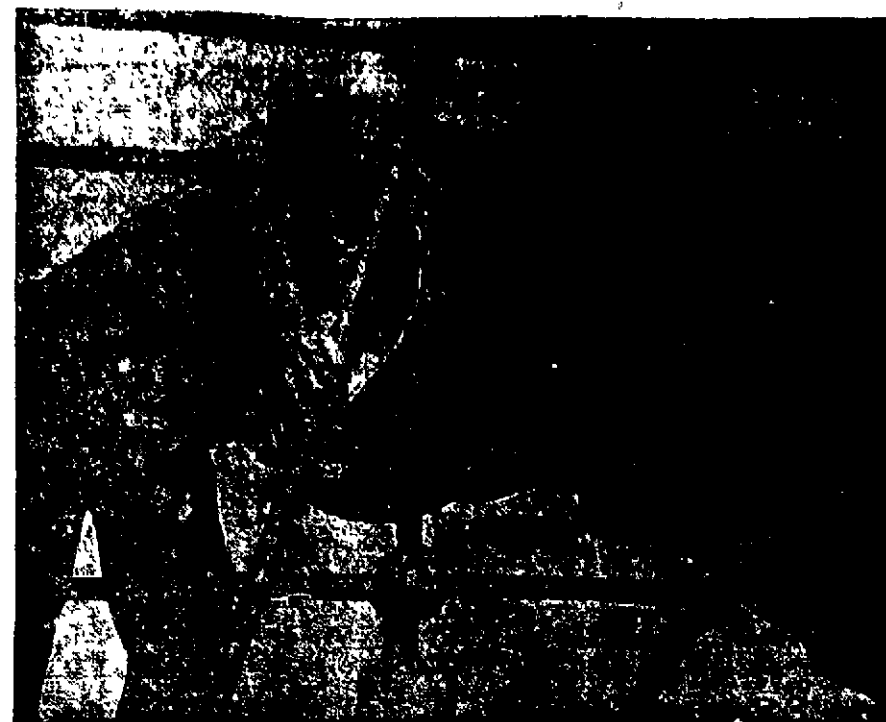

Columbus, April 28.—This year will see a decreased supply of livestock on Ohio farms. It was predicted today by M. P. Callander, state chairman of the Ohio Farm Bureau Federation. "Decreased demand both at home and abroad, together with a large supply of hides and wool in storage, are reasons," he said.

In a comparison of prices for livestock, running between the dates of March 15, 1920 and the same date, of 1921, Callander said hogs went from \$15.30 to \$10.02; beef cattle from \$10.25 to \$7.23; lambs from \$14.90 to \$8.43; sheep from \$9.40 to \$4.60 and veal calves, from 15.20 to \$11.56.

Grains showed a decrease in prices of much the same nature but generally more pronounced. Callander's figures show, wheat underwent a slump between April 1, 1920 and the corresponding date of this year of from \$2.36 to \$1.48; corn, from \$1.45 to \$1.00; hay from \$26.70 to \$13.90; oats from \$9.90 to \$4.40; and potatoes from \$3.30 to \$1.

"After an examination of these prices one does not have to go far to find out the reason why the farmer is not buying. The price level for farm products is below any other commodity, as indicated by the Bureau of Labor. Until there is more of an equalization of prices between what the farmer sells and what he buys, his purchases will be limited to necessities," declared Callander.

The Farm Bureau Federation is encouraging farmers to repair their old machines and wait for further declines

in the price of machinery they need says a bulletin, which comments on the fact that several farm machinery concerns have reduced prices but not sufficiently to induce farmers to resume buying.

Boston, April 28.—In the wake of prohibition, the town pump is being rehabilitated. A subscription is being taken to have it repaired and put in commission after a year's disuse. It was established more than a century ago.

**SAVE WILD FLOWERS.**

Cincinnati, April 28.—"Enjoy, do not destroy," is the lesson the Cincinnati chapter of the Wild Flower Preservation League society is seeking to impress upon Cincinnati school children. Committees are at work gathering pictures, verse and every possible item pertaining to wild flowers and their beauty for the campaign among the school children.

Some men expect to be given a chance while others just go ahead and take it.

Marion Hamilton has the physique, finesse, polish and dramatic talent for the difficult role of "Sailor" Burke. It is his greatest part and he has realized its every opportunity. ## BOYHOOD CLASSIC

Now in Pictures. **THEATRE FOR YOUNG**  
What boy missed seeing Maurice Tournier's "Treasure Island?" "Hardly a one" answer theater managers all over the country.

When this famous French producer made Stevenson's widely read book into a scenario, critics conceded that he had produced a wonderful picture. Most of them observed the masterful way in which he brought out the tense moments—every thrill—and made the story more than worth seeing. Just as they reported this point in that picture, so have the advance audiences praised the same in "The Last of the Mohicans," which starts Friday at the Auditorium theater.

This film of Cooper's famous Leather Stockings tale brings out some thrilling episodes that will make every red-blooded American grip the arms of his seat in the theater. From the very start of the story, Tournier, with his artistry, carries his audience back to the days when America was young. Indians' crafty deceit starts cold chills running up and down the spine. When a noise is heard by one of the white girls—the audience holds its breath with her as she peers into the awesome gloom of the forest, looking for the sign of a red-skin!

The attack on the fort, the massacre, the blowing up of the powder magazines, everything—combines to make this feature of the notable ones in the career of Maurice Tournier. The gentle love of Uncas for the paleface maiden, and her regard for him, and the way the story turns out, causes one to stop and think.

"The Last of the Mohicans" is finely visualized by excellent characters with the master hand of Tournier ever off the screen, guiding them smoothly in their varied actions. The camera work.

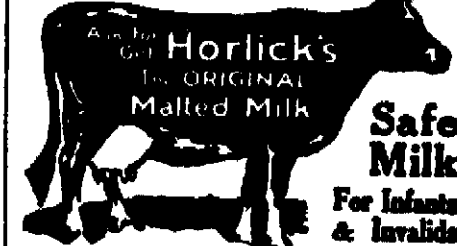

acetic effects and wondrously gorgeous settings are all astonishingly beautiful and the picture is bound to please the many patrons of this popular house.

### CHAMPS ARE SET DOWN.

Cleveland, April 28.—After winning six straight games Cleveland was defeated by Detroit 5 to 2 in 10 innings yesterday. Detroit outbatted Cleveland nearly three to one. The excellent pitching of Helling and Sutherland featured the contest. Sutherland also driving in the winning run in the tenth. Short stop Bush was removed from the game for protesting a decision by Umpire Hillebrand.

### REDS SCORE EARLY.

Cincinnati, April 28.—Cincinnati took advantage of Hanson's wildness in the first inning and defeated Chicago yesterday, 2 to 1. Hanson in that inning hit See and walked Daubert and Duncan which, with a single by Bressler, gave Cincinnati its two runs.

### COLUMBUS' ERRORS COSTLY.

Columbus, April 28.—Only two perfect plays were lacking to make yesterday afternoon a perfect one for the Senators and some 3600 fans. The two perfect plays failed to materialize, and the imperfect ones enabled Indianapolis to stage a big ninth inning rally, which netted six runs and an 8 to 4 win over Columbus in the final game of the series.

## MINE FOR DATA ON LOST RACE

Mexican Government Sinking  
Shaft to Uncover Mysteri-  
ous "City of Gods."

## BUILDERS THOUGHT INDIANS

Immense Stores of Valuable Archeo-  
logical Material Have Been Taken  
From the Various Excavations—  
To Make It Show Place.

San Juan de Teotihuacan, Mexico.—Prospecting for the habitations of a lost race in virtually the same manner as miners dig for gold, federal employees here have just started to uncover the remains of a city of at least 100,000 inhabitants which flourished four thousand or more years ago.

Here and there over the confines of the buried city have been sunk shafts to find streets, houses and temples known to exist below the level of the mountain valley in which lies the little village of San Juan Teotihuacan, the name of which means in the Aztec tongue "City of the Gods."

The Mexican government has appropriated funds for this work of excavation, which is in charge of Manuel Gamio, director of anthropology of the department of agriculture. The government hopes eventually to make the spot one of the show places of Mexico.

Dominating the area are two pyramids, one to the sun and the other to the moon, which for centuries have defied the efforts of archeologists and historians to trace their origin. The pyramid to the moon is still untouched, retaining an appearance to the lay eye of a huge mound of irregular shape, overgrown with grass and rubbish.

## Builders Thought Indians.

Senior Gamio says the city now under excavation at one time covered an area of fifteen square miles with a population of more than 100,000. Its builders are unknown to history, but Senior Gamio believes they were a part of an Indian tribe which wandered into Mexico from the north, and finding the valley fruitful and the climate salubrious, decided to settle there.

The presence of volcanic rock as one of the top strata covering the ruins indicates that one of the nearby mountains erupted and inundated the city with lava.

Entry to the grounds is made facing the "Temple of the Goddess of the Winds," which was discovered less than a year ago, when erosion uncovered well-defined walls and decorations typically Indian and Egyptian in their conception. This temple has now been dug out and reconstructed on the exterior.

The inside is reached at present through a series of subterranean passages. Inside the visitor treads over massive stairs ornate with decorations of huge serpents with obsidian eyes and grotesque conceptions reminiscent of Egyptian art. The work of interior excavation and reconstruction is far from complete.

## Paint Still Bright.

Between this temple and the pyramid to the sun is a stretch of one-quarter of a mile, which is at intervals pierced by the shafts of the diggers and in some places by the uncovered remains of a house or public building with the paint still bright and the frescoes as intact as the day they were placed there several thousands of years ago.

Between the two pyramids is a well-defined plaza, on one side of which a street has been uncovered, known as the "Path of the Dead." Flanking the plaza are hundreds of mounds, which Senior Gamio assured the correspondent contained either houses or temples.

Immense stores of valuable archeological material have been taken from the various excavations. Human bones, terra cotta beads, obsidian knives, arrowheads, children's toys of clay, cooking utensils, incense burners and crude musical instruments form the bulk of the find, and all are preserved in a museum which has just been erected on the grounds.

In connection with his supervision of the excavations, Senior Gamio has interested himself in the Indian life of the valley, and one of his first efforts has been to establish schools with special attention paid to manual training.

Originally the valley contained 200,000 Indians, but these had been reduced to 20,000 in colonial days, and now number fewer than 8,000. They earn but a poor living when crops are good, and when these are failures starvation and widespread death ensue.

Groups of Indians engaged in pottery making, a new industry in the valley, were evidence that a portion at least of Senior Gamio's program was being carried out.

## Cheap Horses.

Los Angeles, Cal.—"Horses in Montana are selling for \$1 per head," declared E. M. Gamble, a prominent Iowa farmer, who was a visitor in the city recently.

Mr. Gamble asserted that he had just traveled through Montana and that owners of ranches there had offered him horses for \$1 each if he would take them out of the state. Due to high freight rates, the Montana ranchers cannot dispose of their stock, he said, and as there is no market in the Southwest the ranches have become overstocked with horses of from 900 to 1,300 pounds.

Two hearts that beat as one don't necessarily beat their way through life.

## BLOOD PROOF OF PARENTAGE

Test Ordered by San Francisco Judge for First Time in History of American Courts.

San Francisco.—For the first time in American courts parentage has been determined by a blood test.

On the strength of a formal report made by Dr. Albert Abrams, who, by blood tests, found that Virginia Vittori was the daughter of Paul Vittori, Judge Thomas F. Graham ordered Vittori to show cause why he should not be punished for contempt of court for failure to pay alimony for the support of the child. Mrs. Vittori is suing for a divorce. Vittori declared that the child was not his, and the court ordered a blood test by Doctor Abrams.

Doctor Abrams in his report said: "The examination proved conclusively that the blood of the daughter corresponded racially to that of the father and mother, viz., Italian on the father's side and Spanish and French on the mother's side, in proportion approximately to three of the former to one of the latter, French. Furthermore, the vibratory rate of the child corresponded to that of the father."

The vibratory test is one of the most delicate known to medical science.

## DEMAND SUFFRAGE IN JAVA

Upper Class Native Women Reported to Be Making Rapid Strides Toward Emancipation.

Amsterdam.—Woman's suffrage movements have reached the Dutch East Indies, the colonies whose history and ancient savagery were chiefly known to credulous Americans through the agency of circus side-shows, wherein the "Wild Man of Borneo" and "The Terrible Dyaks, Feroocious Head Hunting Cannibals," drew many dimes while the crowds waited for the "big tent" to open.

Head hunting and kindred savage pastimes still continue, to some extent, within the jungles of these Dutch islands, but, according to the Dutch press, most of the natives are rapidly adopting modern theories.

In Java, the upper class native women, under leadership of Raden Adjeng Kartini, a woman of high birth, are reported to be making rapid strides toward emancipation, although the Mohammedan custom of polygamy still prevails. In all the "Kartini schools" the girls of the upper classes are being taught Occidental theories of equality with the men. Dutch correspondents say the progress of the movement is necessarily slow, but appears to be certain of ultimate success.

## One Little Pig Is Cause of Furore

Cincinnati.—"This little pig went to market, and this little pig stayed at home," and this is a story about a little pig that didn't want to do either, and in its efforts to get out of staying home and going to market caused a Cincinnati fire department to go clanging away on a fruitless trip.

The pig was in a pen in the Meyer packing house. It got out, and soon had a throng of employees chasing it madly around. The pig rebounded here and there in the factory, finally coming full tilt against an automatic fire alarm. An engine company, hook and ladder and the district fire marshal responded. Also a great number of citizens, who for the time being were disengaged.

The pig eventually was corralled, with the aid of the citizens.

## KITTEN BETRAYS "BURGLAR"

Californians Find Little Intruder Under Bed When Pet Utters "Me-ow."

San Francisco.—The littlest burglar was caught in the act at San Mateo. The act that the burglar was caught in was sleeping, and it was a kitten—the burglar's own—that led to the discovery.

The burglar was Adeline Sanchez, seven years old. Mrs. W. E. Tolley of San Mateo awoke at an early hour in a burglar's fright. She called her husband. They switched on the lights, armed, searched, and gave it up. Returning to their bedroom, they heard a me-ow. It came from under the bed. They looked and found Adeline sound asleep on the floor, with her kitten in her arms.

They turned her over to Probation Officer Francis T. Rapp, who found that Adeline lives with her grandmother at San Mateo and has run away nearly every night for a month.

## Wants to Pay Old Bills.

Nortonville, Kan.—After being absent from Nortonville for 20 years, John J. Sheeran writes from California that he wishes to atone for his wrongs by paying all his unpaid bills in Nortonville. Sheeran says in his letter that he realizes now that "nothing spotted or unclean can gain heaven," and that he had made scandal and desires forgiveness of those he has wronged. He indicates that if he does not get the bills in a certain length of time he will give the amount or more to charity.

## BAD MONEY TALE WINS LENIENCY

Hobos Heave Thankful Sigh  
When They Get Thirty Days  
Instead of Five Years.

## SAY "JUSTICE AIN'T BLIND"

"Buffalo Ike's" Sportive Dispensation of Some \$75,000, Gets Six Hobos Into Trouble—Barkeeper Finds "Old Hickory's" Eyes Crossed.

Chicago.—"Shoestring" Doyle and his five companions heaved a thankful sigh as they gazed at the patched moonlight on the floor of the county jail.

For "Shoestring" and his mates only had 30 days to think of instead of five years—thanks to the ineffable hospitality of one "Buffalo Ike" and his sportive dispensation of some \$75,000.

One morning recently "Shoestring" and his five partners, "Slim" Roach, "Blackie" Steps, "Spuds" Miller, "Dude" Smith, and "Texas" Ducrost, climbed wearily from the rods of a box car in one of lower Chicago's numerous freight yards.

## Start Out to "Do the Town."

It wasn't warm that day, and Shoestring's shoes leaked as they plodded toward town. They headed for the Bobo college for a feed. Then they got to Madison and Halsted.

"You see," they chorused later to Judge Landis, "we were standing there givin' the town th' high sign and wishin' for a drink, when a feller comes along an' bumps into us."

"Hello, Jack," he sez to me. 'Want a drink?'

"Now, honestly, judge, them's no words to say to me on a cold day—ain't I right?'

"What did I say? I said, 'Sure—where is it?'

"Then what do you tink dat feller did? He pulled out two double handfuls of bills outa his pockets and he says: 'Whee! Looka me! I'm Buffalo Ike of Leadville, Colorado! I'm a wild wolf, an' I'm a-howlin'!' An' den he gives a handful of dem bills to me and my podners. They was \$50 bills, too."

"Now dis feller was lit up some and us folks figgered it was time to beat it after we got th' jack, 'cause he mighta wanted it back. D'ya get me, judge?'

"Well," Shoestring continued, "we ducked aroun' th' block and when we seen he wasn't comin' we headed for a dump dat sells booze. In we went an' up to th' bar."

"We asked for booze and we got it. It had an awful kick—fer th' next thing I knew th' cops was shakin' me up."

But to interpolate: "Shoestring" gave the bartender one of the \$50 bills. Shoestring's appearance was far from prosperous—the bartender looked carefully at the bill.

"Old Hickory's" Eyes Crossed. And behold—the face of Andrew ("Old Hickory") Jackson which looked back at him wasn't natural.

"Old Hickory" had cross eyes. The bartender phoned Capt. Thomas I. Porter of the secret service, who speedily arrived.

Shoestring and his companions went to jail—the bills were counterfeit. But—

"We ain't counterfeiters, judge," the "Shoestring" appealed. "We didn't know the jack was queer. We're just the fall guys for 'Buffalo Ike,' dat's all. He give us dat jack—au' now we've got to stand th' stretch for it. It ain't fair, is it, judge?'

"We-I-I," drawled the judge, "I'll be easy on you fellows. Thirty days apiece!"

Out in the hallway the quintet grinned at each other:

"Ain't that a right guy?" jubilated "Shoestring." "There he mighta given us a fiver apiece and he hands out just 30 days. Ain't he th' best doggone judge in th' judiciary? I'll tell th' world he is."

"Justice ain't blind, is it?" one was heard to say.

## BANDITS INFEST HOLY LAND

One of Outlaw Leaders Killed—Galilee District Police After Other Bandits.

Jerusalem.—Bandits have flourished in the holy land as well as in other parts of the world since the beginning of the war.

Abdul Hadi Kaba, notorious outlaw leader, who is said to have several murders to his credit, was shot and killed at Zichron Jacob recently, while attempting to escape arrest.

The Galilee district police, in co-operation with the authorities of Ajlun, successfully attacked the Speitan section of Mudeira's gang of bandits at Karf Abil and captured several of them. Mudeira himself is a fugitive on the other side of the Jordan, and it is believed that his followers are scattered.

## Bull Holds Up Freight Train.

York, Pa.—For nearly half an hour the other day a bull owned by Harry Billet, a farmer, held up a west-bound freight train on the Pennsylvania railroad. Efforts to pull the bull off the track by using mules were futile. It was finally pushed off with a heavy automobile truck.

The fellow who shoots off his mouth never seems to run out of ammunition.

## METROPOLITAN FINANCES

(Montana Oil Fields Bulletin)

Secretary Ernest Cornell, of the Metropolitan Petroleum company, tells the Bulletin that the last drilling operations of his company have been fully financed, and that spudding in of the first well will be in order very early in May.

President Leo H. Faust, who has been actively in the field in charge of financing operations, will be in Lewistown to participate in the final arrangements for drilling well No. 1 for the Metropolitan.

The holdings of the company lie across the axis of the Cat Creek anticline, on a direct line between the Big Six and the West Dome company's ground upon which there are now two producing wells.

A drilling contract with responsible and experienced drillers will be let, and as there will be no lack of funds, the drills should get down to the sands in something like record time.

It is not invited distinction for the Bulletin to say that no other company operating in the Lewistown oil fields is more capably officered and directed than the Metropolitan Petroleum.

# SHE WASN'T SICK, BUT HER CHILDREN WERE

Six Months of Care and Worry Were Too Much for Her

## GOT THIN, NERVOUS, TIRED

Her Brother-in-Law, a Doctor, Said She Was Anemic, and Advised Pepto-Mangan

Here is a story of a strong, vigorous mother who never knew what ill-health was. But three years ago her two little boys got into the habit of being sick. Six months of care and worry were too much to bear and brought to light the fact that with all her apparent vigor, she really was anemic. She lost flesh, couldn't sleep well and got nervous.

Then the doctor (her brother-in-law) prescribed Pepto-Mangan.

She said "Fred explained a lot about the special sort of iron content in Pepto-Mangan and a lot of other things that I don't understand but what I do understand is that a bottle of Pepto-Mangan is always going to be in my medicine chest. I don't know or care, but I do know that it builds me up when I get run down and that's enough for me."

God's Pepto-Mangan is an absolutely dependable red blood builder in all conditions of lowered vitality, not due to serious diseases of the vital organs. It improves the appetite, imparts color to the cheeks and creates new hope and ambition to those who have become pale, weak, and listless. Physicians recommend God's Pepto-Mangan. When you are sure the word "God's" is on the package. Without "God's" it is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists.—Advt.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

## GERMANS HOPE FOR NEW NEGOTIATIONS

Berlin, April 28.—The Berlin newspapers, with the exception of the conservative organ, in commenting on the German counter proposals on reparations, made public yesterday, express hope that these proposals will at least form the basis for new negotiations, which will preclude occupation of further German territory and the application of additional penalties after May 1.

The Tageblatt takes the view that the propositions constitute an approach to the Paris demands of the allies and furnish a framework, resumption of conferences.

The conservative Deutsche Tages Zeitung views the proposal with sorrow and reaches the conclusion that Germany's industries are bound to be robbed, regardless of circumstances.

The Red Flag, the Communist organ, says: "Germany can offer what she will but the fact remains that there must be security, and the only guarantee lies in the occupation of the Ruhr valley." The newspaper concludes its editorial with an appeal to the workmen to "rise and strike down the entente bourgeoisie exploiters, who, supported by the German bourgeoisie are seeking to enslave you with class penalties."

## KIDNEYS AILING? WATCH THE SYMPTOMS

Don't take any chance with your kidneys. If you have the faintest suspicion that your kidneys are weak or your bladder is irritated the wisest thing you can do is to get bottle of Dr. Carey's Marsh root at once.

Watch the symptoms carefully. The tiniest signals often indicate that the kidneys are ailing and need attention. Dry skin for instance and little specks floating before the eyes. Sometimes the feet feel heavy, as if your shoes were full of lead. Often the joints ache or you have quick, darting pains shooting through the back and side. Then again that frequent desire to empty the bladder, cold, clammy feet and just a little puffiness under the eyes. Occasionally the hands or feet swell slightly and the palms of the hands are moist. Don't neglect them—you can not afford to take any chances with your kidneys.

**IMPORTANT**—Dr. Daniel G. Carey, the well known kidney and bladder specialist of Elmira, N. Y., who retired recently, declared that this great prescription, No. 777, "Marshroot," had helped thousands of sufferers from kidney and bladder troubles. It is not a patent medicine and is only sold through drug stores to accommodate his patients. Heretofore you can always get this effective prescription at Evans Cut Rate drug store and all reliable pharmacists the country over. Keep in mind the name, Dr. Carey's Marshroot prescription No. 777. No other medicine can take its place.

## EVANGELIST SCORES NEW RELIGIOUS FADS

"No one owes more to Christ than woman," said Evangelist Cowley last night at the Second Baptist church. He continued, "Christ lifted her from slavery, cry, shame and sin to liberty, honor and purity. It is strange to see so many of our American women running after new religions which are a mixture of oriental philosophy. They talk about the pretty things of the faiths of the Hindu and other eastern religions, they forget that such philosophies teach that a woman is one-tenth less than a dog. All of her liberties date back to Christ. No man previous to Paul dared put woman on an equality with man, he was

the first to say "In Christ there is neither male nor female."  
"It is also strikingly true that no woman ever deserted Christ, or persecuted or ill-treated him. If her debt is great, her devotion is unparalleled."  
Mr. Cowley's subject tonight is "The Man With a Price."

**WOMEN IN BANKING.**

At the beginning of the war it created some disturbance in conservative circles, that women were doing so much of the clerical work in banks. Formerly almost all of this service was performed by male clerks.

But women are not likely to stop with these subordinate positions. In Clarksville, Tenn., is a woman's bank that has attracted nation wide attention. Though established but a few months ago, it not has deposits of over \$60,000. You can't set any limits to the business fields that women are destined to occupy.

Success in this line depends a great deal on estimates of character. A woman's keen intuition should make her a good judge of credits, after she has learned to weigh the merits of a business proposition. This ability will come to those who make a study of it.

Upon learning that the women are to make war on bossism, Mr. Hen Peck remarks that he knows personal instances of the above which he hopes will have prompt attention.

The people who try to accomplish their ends by class warfare, should reflect on the way Germany came out when she tried to fight the rest of the world.

The United States government has issued a bulletin advising the people to eat onions. Now it should get out another telling how to sweeten their breath.

It ought not to be expensive to run a shelter house for the benefit of tramps, provided a woodpile and saw horse are plainly visible from the street.

The people who do not want this country to give any help in stabilizing Europe, will be complaining later because everybody hates the United States.

Question is asked what has become of the dinner pail brigade? Well, last heard from a lot of 'em were ordering strawberry shortcake in the restaurants.

After celebrating all kinds of special days and weeks and months, it is respectfully suggested that the country should observe "Go to Work Week."

The folks who complain of the ignorance of the people, may not be willing to vote a liberal appropriation for a public library and reading room.

Latest developments appeared in the housing crisis, when the spring birds returned and found the birdhouse occupied by a pair of interlopers.

175,000 new bird houses have been built by youthful members of the Audubon societies, but 175,000 other active kids have new air guns.

Europe is supposed to have gone crazy, but the report that jazz music is being discontinued over there looks like returning sanity.

Some people in Newark take unnecessary pains to demonstrate that they are following the government advice to eat onions.

Nobody has ever claimed that the man who wrote "Home Sweet Home" composed the same during the house cleaning season.

So far the superfluous office holders are not reported to have passed any resolution in favor of government economy.

You hear a great deal of blue talk in these times from merchants who never dared risk a dollar on advertising.

The younger generation feels that a bicycle is all right for the kids not big enough to run an automobile.

People are urged to "think before they speak," but that would be an impossibility for a lot of them.

Anonymous letter writers, to do the thing appropriately, should indite their communications on yellow paper.

The long winded orators think what the country needs most is free speech.

**Did You Know?**  
That a pellard is a tree from which the entire crew has been cut, leaving it to send out new branches from the top of the stem? These new branches are never as large as the original ones, but are often more numerous. Pellarding is often practiced in districts where there is a great number of branches being cut off every three or four years to be used for fuel.

**XCIV.—A Slight To Greatness.**

It was fully an hour later when Nancy added the last touch of powder to her nose, the last put to her coiffure, and surveyed herself critically in the pier glass.

She nodded approvingly at her reflection.

Her cloth of silver gown with its shoulder straps of smoked pearls was the last word in evening smartness. She slipped into a wrap of sapphire velvet with a collar of ermine, and picked up her long gloves.

"The great man will be raving," she remarked to her reflection, "but in my opinion, and with all due modesty, you are quite worth waiting for, my dear!"

Peggy dashed in without the formality of knocking.

"Dinner is just about to be served. WONT you come in and meet our guests? It seems rather queer—your being our real hostess, and not even knowing who's here."

"My dear, if you knew the temper of the man who is waiting for me downstairs, you would never make such a suggestion," replied Nancy, her good humor completely restored. "I look forward with great enjoyment to seeing the great Doctor Frederick Langwell in a most undignified rage. When you think that Edith, his wife, has never kept him waiting one second in all his life, you'll agree with me that I'm inviting the wrath of the gods. Have a good time!" She touched Peggy lightly on the cheek with her fingers. "And don't let your infant inebriety burn down the house while I'm gone."

True to her prophecy, she stepped out of the elevator to meet an escort who looked like the proverbial thundercloud.

Dr. Langwell was pacing the lobby with quick short strides. He met her amused glance, without a smile, and dragging his watch out of his pocket, held it up to her as a mute accusation.

"I know," laughed Nancy. "I'm groveling in the dust, but I found a dinner party in my apartment, and I'm lucky to have accomplished this trifling feat in all. Only thing: you might have had to take out the untidy frump you delivered here an hour ago."

"An hour?" exploded the doctor. "My dear girl, do you realize that I've been waiting in this damned lobby exactly one and a half and three quarters?"

"Oh, well," shrugged Nancy. "It might have been longer. There's always something to be thankful for where a woman is concerned. The longer a man waits for you, the better he appreciates you."

"I don't approve of your sophistry," replied the doctor curtly. "But I'm too famished to argue. Come along, unless you can think of some other means of detaining me."

"Dear me, what a grinch he has!" Nancy slipped her arm through his and looked up at him with laughing eyes. "Do you scold Edith so severely every time she keeps you waiting?"

"Edith never keeps me waiting," he answered wifely, as he put her in a taxi.

"Model wife! I hope you appreciate her."

"I'm beginning to appreciate her more and more, since I've known you." "Every woman teaches a man something, but it is given to a few to teach him an appreciation of his own wife. When I said that I was going to be a little sister to the wives of my acquaintances by borrowing their husbands, this is what I meant."

The doctor gave her a long scrutiny.

**Mrs. Little Tells How She Suffered and How Finally Cured**

Philadelphia, Pa.—"I was not able to do my housework and had to lie down most of the time and felt bad in my left side. My monthly periods were irregular, sometimes five or seven months apart and when they did appear would last for two weeks and were very painful. I was sick for about a year and a half and doctored but without any improvement.

A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me, and the second day after I started taking it I began to feel better and I kept on taking it for seven months. Now I keep house and perform all my household duties. You can use these facts as you please and I will recommend Vegetable Compound to everyone who suffers as I did."—Mrs. J. S. LITTLE, 3455 Livingston St., Philadelphia, Pa.

How much harder the daily tasks of a woman become when she suffers from such distressing symptoms and weakness as did Mrs. Little. No woman should allow herself to get into such a condition because such troubles may be speedily overcome by Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American women to health.

**BUY YOUR COAL DIRECT FROM MINE—BIG SAVING**

The high cost of coal is a thing of the past! At least there are no complaints on this account—since the removal of government restrictions—among those who have learned how to buy coal. The way to buy coal is to get it direct from the mines. This saves several middlemen's profits. It saves hauling expenses. Anyone can now buy at mine prices, whether a car-load buyer or one who uses only ten or fifteen tons a year. This has been made possible through a plan evolved by a large and old-established concern, THE BERNICE COAL COMPANY, with main offices at 627 Como Building, Chicago.

This company has thousands of customers in various sections of the United States who receive all of their coal direct from the mines. These customers are pleased not only because of the many dollars they save every year, but also because of the quality of coal they are getting. Many write that they never before had coal that makes so little dust, that burns so well, leaving so few ashes. If you are a coal user—whether you use hard or soft coal much or little—it will be greatly to your advantage to write the Bernice Coal Co. at once for prices, stating kind and quantity of coal you use.

**Says His Prescription Has Powerful Influence Over Rheumatism**

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Evans' Cut Rate drug store has been appointed agent for Allenhu in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.
